

Not so tender

Of course you can use the SportJet to get you serenely from beach to boat. But it really comes alive when you open up the throttle.

Its Rotax engine is clean, quiet... and perfect for pulling thrill-seeking water skiers across the glassy evening sea.

More space, more practicality

The SportJet's many features help you play and relax on the sea.

Performance and safety

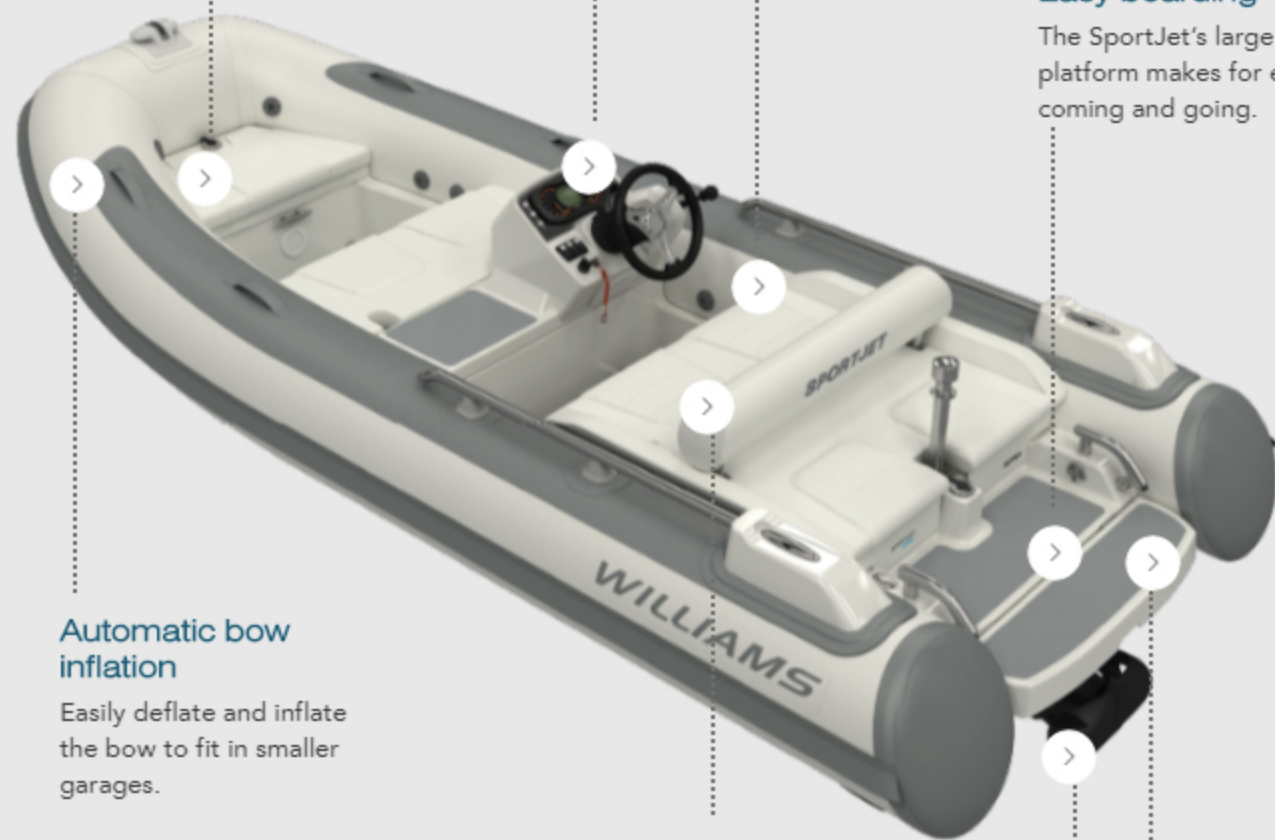

Pairing blistering acceleration with the surest handling.

Seriously powerful

Because extreme sports need extreme torque.

Easy boarding

The SportJet's large aft platform makes for easy coming and going.

Automatic bow inflation

Easily deflate and inflate the bow to fit in smaller garages.

Rotating backrest

Give your rear-facing passengers even more room.

Power limiter

Help new drivers learn safely by pressing the power-limit switch.

Flip-up footrest

Pull up the aft footrest for an even more comfortable ride.
